JOHN DICK, JR.,

Successor to JOHN DICK,

ANNUAL

CATALOGUE

OF

PLANTS FOR 1882.

53rd St. & Darby Road,

Red and Blue Cars from Walnut Street pass the Greenhouses every ten (10) minutes.
Every order is shipped in strict rotation as received; it will be to the interest of purchasers to send in their orders early.

Be particular to write your name distinctly, with Post office, County and State. Orders are frequently received without even a signature.

It is requested that explicit directions are given for marking and shipping packages. Where no specific directions are given, we shall use our best judgment as to the route and mode of conveyance. It should, however, be expressly understood that all packages are at the risk of the purchasers, after their delivery at the forwarders.

No Charges for Boxes, Baskets, or Packing.

Orders from unknown correspondents, unless accompanied by a remittance, or satisfactory reference, will be sent by Express, C. O. D. From this rule we make no deviation.

The greater part of the new plants, and nearly all the bedding plants, can be forwarded by mail; at the prices quoted; but we earnestly advise that wherever there is an Express Office, plants should never be sent by mail, as we not only send larger and finer plants when sent by express, but they arrive in better condition.

Orders can be shipped by Fast Freight at a great saving of charges.

Purchasers are requested to notify us promptly of any errors which may have occurred in filling their orders, as our desire is to give entire satisfaction.

Additional Plants presented to partly compensate for express and freight charges.

We begin shipping as soon as our Catalogue is issued, and by the precaution taken against frost, seldom have a case injured. We ship to every State and Territory in the Union.

Plants may be safely shipped to all parts of the country at all seasons of the year, as our system of packing is so complete, that although we send out thousands of packages during the coldest days of winter, we rarely have a case injured when sent by express. All plants are sent by Express, unless specially ordered otherwise.

In conclusion, we would state that the usual care will be observed in putting up all orders, large or small, to give full satisfaction to the purchaser in the quality as well as in the manner of packing and forwarding.

Wm. T. Johnsen, Printer, 52nd St. & Darby Road, Philadelphia.
Anthurium Dickii
Stove Plants.

VARIEGATED & ORNAMENTAL FOLIAGE.

**Acalypha Musica.**
The several varieties of Acalyphas are now being extensively used for bedding purposes, their tropical richness of color contrasting well with other ornamental leaved plants. Its leaves are variegated rose, white, pink, bronze and green.

**Acalypha Marginata.**
Another new and striking variety. The leaves are green, distinctly banded with a narrow margin of pink and white—a freak of variegation which is seldom seen. This and the foregoing are also valuable house plants.

**Acalypha Tricolor.**

With serrate leaves, eight inches long, six broad, frequently cut in many forms, very highly colored, bright red blotched with deep bronzy crimson; a splendid bedding plant.

Price, 30c. each, $1.00 per doz.

---

**Alocasiaa.**

**Alba Violacea.** Stems blue and white, large foliage.

Arborea. . 50 to 1 00
Bataviensis. Foliage and stems dark purple. 25 to 50
Javanicum. . 15 to 25
Jenningsii. Glaucescent green, with dark stripes. 15 to 25
Metallica. Foliage silvery shaped, and beautifully bronzed.

50c. to 2.00 each.

Macrohiza Variegata. 50 to 2 00
Veitchii. . do do
Zebrina. . 1 00 to 5 00

---

**Anthuriums Continued.**

Crystallinum. Upper surface of leaves marked with broad silvery lines; the young leaves are a dark purple color.

Price, $1 to $3 each.

Hybridum. . 50 to do
Leuconeurum. . do do
Magnificum. . do do
Regala. Leaves of a rich dark velvety green. . 50 to 3 00
Scherzerianum Album. A very robust growing variety; flowers pure white. See cut page 4. 50 to 1 00
Scherzerianum. Flowers brilliant scarlet. . 75 to 2 00
Floribunda. This is a warm greenhouse plant; flowers pure white. . 1 00 to 3 00
Onata. New. . 3 00
Warocqueanum. New. 3 00

---

**Aralias.**

*Micans.**

*Rozeliana Rosea. Flowers bright orange scarlet, foliage highly ornamental. 50

*ARALIAS.*
Guifsoylei. A very distinct species, producing large pinnate leaves; leaflets obscurely lobed, from two to three inches long, light green, margined with pure white. Native of the South Sea Islands.

Price, 35c. to $1 each.

Longifolia. 1.00 to 2.00
Papyracea. Rice paper plant. 25 to 50

Leptophylla. A fine form, the leaves are beautifully cut, and stems spotted with yellow, compact habit. Price, $1 to $5 each.

Veitchii. A most elegant slender growing Aralia producing handsome digitate leaves, with filiform leaflets, which are much undulated. The color of the leaf is dark very glossy green on the upper surface, and dark red beneath. Price, $1 to $5 each.

Elegantissima. Habit of Veitchii in growth leaves produced on long foot-stalks of a dark green color, decorative plan. Price, $2 each.

Artocarpus Cannonii,
Bread Fruit Tree. 1.60 to 1.50

Begonia,
Rex Varieties. 15c. to 25c. each, $1.50 to $2 per dozen.

BERTOLONIAS.
Maculata. 35 to 50
Van Houtii. New. 75 to 1.00

Bohemia Argentea. 50c. each.

CALADIUMS.
Many of them do well planted out in summer, with partial shade and moist soil.

Esculentum. 10 for $1, extra large, 10 for $1.75.

Fancy, No. 1. 25 varieties, $6.
   " No. 2. " 4.
   " No. 3. " 2.50

CAMPYLOBOTRYS.
Discolor. 35 to 50
Fulgens. do do
giesbrighttii. do to 1.00
Porphyrophylla. do to 50

Costa Arabica. 50c. each.

Costos Zebrina. 35c. to 75c. each.

Coprosma
Baueriana Picturata. A free-growing plant. The leaves are ovate and bluntly rounded, and have a smooth surface of pale green, marked with blotches of pale yellow and creamy-white, spreading out from the midrib on one or both sides, and assuming a variety of grotesque forms. 25 to 50 cents each.
Croton Queen Victoria.

This is one of the handsomest varieties as yet introduced. It is of medium growth and free-branching habit, a most desirable feature in the formation of good specimens. The leaves when well matured are from ten to twelve inches long, and two inches broad. The ground color of the leaf is a rich golden yellow, beautifully mottled with green, the mid-rib and primary veins are of a rich magenta color, changing with age to a vivid crimson; the margin of the leaf is unevenly banded with carmine, often extending as far as the mid-rib, and so harmonizing with the rich yellow as to produce a gorgeous effect.

50c. to $2 each, according to size.

CROTONS.

Andreanum. A fine variety of neat habit and free growth, the foliage is large and ovate oblong, which colors in a most exquisite manner, one of the most beautiful of all crotons. Price, $2 each.

Disraelii. Coloring of the foliage is rich and varied, shades and markings of scarlet, orange and yellow are seen on the same plant with the deep green ground of the mature foliage, and the bright light green of the younger leaves.

50c. to $2 each, according to size.
Croton Volutum.

A very distinct form, the leaves being rolled up from the end in a volute, after the manner of the curving of a ram's horn. The ground color is deep green, a golden bar runs down the centre, from which yellow veins diverge at about half inch intervals, and meet near to, and so as to coalesce with the golden margin, in which occur scattered spots.

Price, 50 cents to $1.00 each.

Crotons Continued.

Earl of Derby. A remarkably fine trilobed variety, the stem petioles and midribs being of a very bright yellow, which diffuses itself over the greater part of the leaf; this, however, as the plant matures, becomes suffused with a bright red.

Price, $1 to $3 each.

Elegans. Leaves yellow and green.

Price, 50c. to $3 each.

Maculatus. A beautiful species. Leaves large, dark green profusely spotted with golden yellow; of easy culture.

Price, 75c. to $1.50 each.

Picta. Foliage dark green, spotted with red and yellow.

Price, 35c. to $1 each.

Queen Victoria. See page 5.
Variegatum. Leaves dark green, blotched and spotted with golden yellow. 30c to 50c each.

Variegatum Rubrum. Leaves dark green, striped and spotted with red and golden yellow. 30c to 50c each.

Volatum. See cut page 6.

Wiesnani. A remarkably distinct variety, with long narrow leaves. It is of a very graceful habit and of a free growth, the leaves attaining 12 to 15 inches in length and ½ inch in width. The upper surface is of a dark shining green, veined and blotched with a bright yellow, while the under surface is similar but of a paler color.

Price, $1 to $3 each, according to size.

Youngii. This is a magnificent Croton, perfectly distinct in every way from any other variety yet known. It is of noble and graceful habit. The leaves are of great substance, from ½ to 2 feet in length, by ¾ of an inch in width, deep red underneath, while the upper surface is dark green, densely blotched and suffused with creamy yellow and bright rosy red.

Price, 5¢ to $3 each.

Acubifolium. Foliage dark glossy green, studded with yellow blotches, midrib and veins slightly tinged with pink.

Price, 25¢ to $1 each.

Angustifolia. 15 to 50

Aurea Maculata. Foliage deep but bright green, profusely spotted with golden yellow.

Price, 30¢ to $1 each.

Cornutum. Leaves blotched and spotted with yellow, a peculiar extension of the midrib, having a horn at the apex, giving the plant a distinct character.

Price, 25¢ to $2 each.

Comptophyllus. Tiny little Croton of compact habit; general variegation yellow and green, sometimes becoming clear yellow.

Price, 30¢ to $1 each.

Comte de Germiny. The leaves have bright crimson midrib and are blotched with bright golden yellow on a bright olive green ground.

Price, $2 each.

Discolor. Dark green foliage with bright carmine back.

Price, 15¢ to 50¢ each.

Evansianus. The newest formed leaves are light olive green, with midribs and veins of golden yellow, and the interspaces spotted with the same color. As the leaves become older, the green deepens and changes to a bright bronzy crimson, and the golden yellow of the midribs, veins and spots becomes a rich orange scarlet.

Price, 50¢ to $5 each.

Fasciatus. A bold broad-leaved form. Leaves 9–10 by 4–15 inches. Leaf-stalk about an inch long, brownish in the centre, paler at either end. The blade of the leaf is inversely egg-shaped, tailed, rounded at the base, of a lively green color, traversed by bright yellow veins, and marked with a few irregular spots and blotches. It is a fine variegated kind, of bold habit, and will prove a fine plant for exhibition purposes.

Price, $1 each.

Gracilis. Very similar to Croton Comptophylla, but of a stronger growth and habit.

Price, 30¢ each.

Gloriosus (Princess of Wales). This is one of the long leaved drooping forms of Croton, and is perfectly distinct in character. The leaves are from 1½ to 2 feet in length, sometimes plain, and sometimes strongly undulated. The ground color is green, and the variegation creamy yellow, very variable in character. In some there is a creamy-yellow midrib, with a band on each side; in others the midrib is bright green. The markings are of the maculate style, with here and there large blotches of clear creamy yellow, and in other parts clouded markings of smaller confluent blotches and spots.

Price, $1 to $5 each.

Interruptum. Foliage of a bronzy green, centre ribs bright scarlet, shading off to a rich golden yellow.

Price, 35¢ to 50¢ each.

Irregulare. Ground color dark green, midrib orange-yellow, with the upper surface of the leaf irregularly spotted and blotched with yellow.

Price, 30¢ to $1 each.

Johannes. The midrib is yellow, spotted and marked with the same color on a bright
Crotons continued.

Green ground. It will be much prized as an exhibition plant.

_Price, 75c. to 2.00 each._

Lancifolius. The ground color of the leaf is dark green, the midrib, margin and primary veins pale yellow, which, as the plant attains its character, becomes reticulated with bright rosy-pink; the whole of the leaf presenting a very charming mosaic appearance.

_Price, 35c. to 1.00 each._

Longifolium. 50 to 100

Lord Cairns. The color of the foliage is a bright but deep green, the midribs of the leaves a light yellow, the blades blotched and spotted with the same color, the spots and blotches being irregularly scattered over the surface, and sometimes clustered towards the point of the leaf.

_Price, 1.00 to 3.00 each, according to size._

Maculatus Katonii. The color is a deep but bright green, densely spotted with yellow. The habit of the plant is neat and compact; the leaves are spreading, and display their characteristics to the best advantage.

_Price, 75c. to 1.50 each._

Macarthurii. The great charm and recommendation of the plant is its excellent habit; and its pleasing and very striking variegation, fully one half of which is yellow.

_Price, 1.00 to 3.00 each._

Majesticum. A truly grand variety, leaves from twelve to eighteen inches long; somewhat narrow; when young the leaves are deep green, ribbed with golden yellow, the green changing with age into a deep olive and the yellow becomes crimson.

_Price, 50c. each._

Multicolor. Leaves light green blotched with yellow, but changing to glossy green blotched with yellow, reddish yellow and red, the midrib crimson.

_Price, 40c. to 75c. each._

Mycrophyllus. The leaves are from nine to twelve inches in length, and half an inch in breadth, lanceolate in shape; the stem and petioles are yellow tinged with crimson; the leaves are sometimes half colored; whilst in others the costa is marked with crimson, surrounded with a band of rich yellow, the margin is pale green splashed and speckled with the same color.

_Price, 1.00 to 3.00 each._

Mutabilis. 1 00

Maxima. 1 00

Nevillia. _New._ The leaves are of oblong lanceolate form. When first expanded their midribs are bright golden yellow, and the blades light olive green barred and marked with yellow. In the mature leaves, the yellow is changed to crimson shaded with orange and the green much deepened, the whole being suffused with a metallic hue peculiar to this plant.

_Price, 75c. to 3.00 each._

Nobilis. Ground color dark green, the midrib being in the young state orange yellow, changing with age to bright crimson; the remainder of the leaf is beautifully blotched and marbled with orange yellow and crimson.

_Price, 75c. to 1.50 each._

Sunset. _New._ 2 00

Spirale. The spiral leaves render it most distinct, they are from 9 to 12 inches long, and about 1 inch wide and pendulous; in a young state the ground color is deep green, striped up the centre with a broad band of golden yellow; with age they change to a deep bronzy green, and the midrib becomes a deep crimson.

_Price, 50c. to 1.00 each._

Stewartii. The leaves are obovate, rounded at the base, shortly stalked, dark olive-green, irregularly banded and margined with rich orange. The midrib and petioles are bright magenta, which produces a striking contrast to the canrine markings on the remaining portion of the leaf.

_Price, 1.00 to 2.50 each._

Undulatum. This is one of the most beautiful varieties, the edges of the leaves being beautifully undulated and wavy, variegation consisting of numerous markings and blotches which in the matured leaves are of the brightest crimson on a dark green ground, and in
GROTONS CONTINUED.
young leaves, at first yellow, gradually changing to pink and crimson.
Price, 40c. to 75c. each.

Veitchii. A splendid variety. The leaves attain a length of 12 to 14 inches, and 2½ inches in breadth, and are traversed by broad bands of creamy yellow, which change with age into rose and carmine purple.
Price, 30c. to 75c. each.

CYANOPHYLUM.
Assamicum. A very beautiful foliage plant, large and fine foliage.
Price, 50c. to 1.50 each.
Magnificum. A grand specimen plant, having large beautiful foliage.
Price, 50c. to 1.50 each.

Crytodeira Metalica.
A charming grasslikeaceous plant with metallic, bronzy, hirsute, ovate leaves, the centre of which is broadly suffused with rosy pink; quite a novelty.
Price, 25c. each.

CYPERCUS.
Alternifolius. Umbrella plant
Al ernisfolius Variegata. Striped with white.
Price, 75c. each.

DIEFFENBACHIA.
Baraquiniana. A fine plant, with white stems, leaves green, spotted and blotched with pure white.
Price, 75c. each.
Bansei. A broad leaved variety, with yellowish green leaves, which are irregularly edged and blotched with dark green and spotted with white.
Price, 50c. to 1.50 each.
Bowmanii. Very large bright green leaves blotched and marked with golden green.
Price, 50c. to 1.50 each.
Brasiliensis. The ground color of the leaf is deep green, and the whole surface is mottled with small blotches of greenish yellow and white.
Price, 50c. to 1.50 each.
Gigantea. Large, robust foliage.
Price, 35c. to 75c. each.
Picta. A very beautiful plant; leaves a deep green, mottled with white.
Price, 35c. to 75c. each.

Delechampia Roezleana Rosca.
Flowers with large rose colored bracts.
Price, 25c. to 1.00 each

DRACENAS.

Dracana Goldieana.
A magnificent ornamental foliage plant. It is a native of western tropical Africa. The plant is of erect habit, and the stems are closely set with stalked spreading leaves, the petioles of which are of a grayish color tereete with a narrow furrow along the upper side, the base being dilated and shading the stem. The leaves are marbled and irregularly banded with a dark green and silvery gray in alternately fruncate bands, the markings being equally distributed. The back of the leaf is a reddish purple. It is without doubt one of the handsomest novelties introduced, and should be found in every choice collection.
Price, 3.00 to 8.00 each.

Amabilis. The ground color of the leaf is bright glossy green becoming beautifully marked and suffused with pink and creamy white, the young leaves being occasionally of quite a rosy color. The plant is of a robust growth, the leaves being about 24 to 30 in. in length and 4 to 5 inches in width.
Price, 75c. to 5.00 each, according to size.
Dracaena Hybrida. (Veitch.)

This is a very distinct seedling, and the first hybrid which has been offered to the public. It is a cross between Dracaena Magnifica and Dracaena Albicans. The plant is of medium growth, with leaves averaging from ten to twelve inches in length by three in breadth. They are of a deep green color, which, as the plant attains age, becomes entirely suffused with deep rose and white, the older leaves being margined with bright rose. The variegation shows itself whilst the plant is quite young, and from its graceful habit and beautiful coloring, it cannot fail to be exceedingly useful for all decorative purposes.

Price, 50c. to $2.50 each.
DRACENAS CONTINUED.

Alba Nana. New. A very compact growing variety. Leaves creamy white shaded with rose and margined with green, a striking variety.

Price, 2.00 each.

Baptistii. A fine form, having both stem and leaves variegated. The leaves are from twelve to eighteen inches in length, ground color bright green margined and striped with yellow and pink

Price, 50c. to 3.00 each.

Robinsoniana. New. A robust growing variety, having leaves from 15 to 18 inches in length, and from 3 to 3 1/2 inches in width, the ground color is a light olive green, very much striped with bands of bronze crimson and greenish white, the petioles are margined with crimson The coloring is unlike that of any other Dracena, and marks the plant as distinct.

Price, 1.00 to 2.00 each.

Scottie. Variegations very similar to Hybrida, but more distinct. The habit also is dwarfer and more compact.

Price, 1.00 to 2.00 each.

Braziliensis. Broad drooping foliage.

Price, 50c. to 1.00 each.

Cooperi. Broad drooping leaves, dark purplish green and crimson.

Price, 50c. to 1.00 each.

Dennisoniana. Foliage very dark, erect growing.

Price, 75c. to 1.50 each.

Draco. Dark green, stiff habit like a Yucca.

Price, 50c. each.

Ferrea. Very dark metallic bronze, erect leaves.

Price, 25c. to 75c. each.

Guiffoylei. A most superb species, with long pendant lanceolate acuminate leaves, the ground color is bright green, fully one half the leaf, however, is striped with white and bright rosy red, the latter color mostly forming the border in addition

Price, 50c. to 1.00 each.

Haageana. Green shaded with bronze.

Price, 50c. each.

Harrisoniana. 1.00

Hendersonii. 50 to 1.00

Imperialis. The color is a deep sap green, breaking out freely in the young leaves into white, turning to a bright rosy tint with age

DRACENAS CONTINUED.

prominent near the base of the leaf and extending upwards.

Price, 1.00 to 3.00 each.

Insignes. 50 to 2.00

Price, 50c. each.

Jaspida. New. Handsome dark green foliage, prettily marked with yellow and pink rays, after the plant attains age.

Price, 50c. to 2.00 each.

Latifolia Pendula. Drooping variety, bronzy green foliage flaked with crimson.

Price, 25c. to 50c. each.

Marginata. 50 to 1.00

Mooreana. The habit is compact, and especially suitable for decorative purposes. The base of the leaf stalk and the midrib are of a bright reddish crimson, which, in the leaf itself changes to a glossy bronze.

Price, 75c. to 1.00 each.

Nigricans Rubra. Leaves of a dark brown, with a bright rosy crimson centre.

Price, 50c. each.

Porphyrophylla. Color of leaf deep bronzy hue, and remarkable for the contrast presented by the glaucous hue of the under surface.

Price, 35c. to 3.00 each, according to size.

Princess Margaret, New. The leaves are about eighteen inches long. When first expanded they are creamy white, slightly shaded with green, also a few oblique stripes of deep green, with a pale crimson midrib. The light colored portions of the leaf become suffused with delicate rose.

Price, 2.00 to 3.00 each.

Sheperdii. The color appears in the free young growth of vigorous plants, this plant takes on its distinctive coloring gradually on the older leaves, the young ones being green, and showing paler green stripes on those parts which take on at a later period a bronzy orange hue.

Price, 50c. to 3.00 each.

Speciosa. 75

Sulcata. 50 to 1.00

Spectabilis. An erect free growing variety, having broad arching leaves, narrowing at the base to a long greenish stalk, leaves deep green slightly bronzed.

Price, 75c. to 1.00 each.
DRACENAS CONTINUED.

Tesselata. Fine drooping variety, narrow dark green foliage bordered with crimson.
25c. to 75c. each.

Terminalis. The most highly colored of the collection, richly shaded with scarlet and deep crimson. Very handsome
Price, 25c. to 1.00 each.

Price, 50c. each.

Youngii. Young leaves light green, tinged with rose, streaked with dark red, changing with age to bright copper color.
50c. to 3.00 each.

Drymonia Turialvae.
This fine plant has large leathery leaves, underside of a purple red color, upper silvery gray very ornamental.
Price, 75c. each.

Durati Baumgarti Var.
Price, 50c. each.

ERANTHEMUM.

Eranthemum Albescens. (New.)
A new variety with light gray green foliage beautifully margined and blotched with creamy white, a most distinct variety. See cut in bedding plants.
Price, 1.00 each.

Eldorado. Another good variety for bedding, entirely distinct from the preceding. Foliage green, mottled golden yellow.
Price, 50c. each, 450 per doz.

Pulchellum. Flowers deep blue during winter, very handsome.
Price, 30c. each. 3.00 per doz.

Tricolor Atropurpurea. Like the Croton, Dracaena, etc., this plant requires a warm temperature to bring out its beautiful variegations, which run through all the shades of pink purple and maroon. It has proved most valuable for massing in open ground.
Price, 30c. each, 3.00 per doz.

Sanguinolentum. A rather scarce species; foliage thick and leathery, of a deep crimson maroon. Leaves glossy—looking as if varnished—making a very attractive plant for decorative or bedding purposes.
Price, 30c. each, 3.00 per doz.

ERANTHEMUMS CONTINUED.

Tuberculatum. Flowers during winter, pure white in great profusion.
Price, 30c. each,

Rubra Vena. . . . . 30
Veitchii. . . . . 30

Erioecenema Marmoreum.
Plant dwarf, with habit of some of the Begonias, leaves green, striped with broad bands of white; a beautiful plant.
Price, 75c. each.

FICUS.

Ansei. (Gum Elastic Tree) A beautiful robust variety, large foliage, showing its bright midrib and veins.
Price, 50c. to 1.00 each.

Australis. A very neat and beautiful plant not so robust as the F. Elastica, but of a dwarf and compact habit, and medium size; thick, deep green, glossy foliage.
Price, 50c. to 5.00 each.

Chauveri. Foliage much larger and broader than F. Elastica, with cream colored midrib.
Price, 75c. to 1.50 each.

Coopeii. Another variety, with narrower leaves than F. Elastica, with red midrib.
Price, 1.50 each.

Dealbata. . . . . 50 to 1 00

Elastica. The old and favorite sort. Fine large shining foliage
Price, 50c. to 2.00 each.

Nitida. Foliage very fine.
Price, 50c. each.

Parcellii. The leaves, which are of large size, thin texture and coarsely serrated on the margins, are of a bright green color, profusely but irregularly blotched with creamy white and dark green.
Price, 75c. to 3.00 each.

Repens. A creeping plant, valuable for covering pillars, walls, or rock work in conservatories. 15 cents each.
Ficus Continued.
RepenS Variegata. 30
Religiosa. 50 to 1.00

Fittonia. (Gymnostachyum.)
Low growing plants of creeping habit, grown for the beauty of their leaves, which are veined in the most curious manner with lines of white, carmine and crimson. Valuable plants for Wardian cases or ferneries, or for growing in shaded greenhouses or rooms. 30c. each, $3.00 per doz. set of 4 $1.00.

Argyrea. Bright green netted with silvery white.
Gigantea. Coloring like the two following sorts, but of stronger growth.
Pearcii. Green netted with pink and red.
Verschaffeltii. Reticulated with red, passing into crimson.

Graptaphyllum.
Picturn. Beautiful variegated caricature plant.
Versicolor. 50 cents each.

Hibiscus.
Cooperi Tricolor. Leaves white, mottled, edged and veined rose color.
35c. to 50c. each.
Rosa Sinensis Aurea Variegata. Foliage marked with large blotches of bright yellow. 35c. to 50c. each.
Rosa Sinensis Lineata Variegata Alba. Foliage of this variety is prettily lined and blotched with greyish-white. 3c. to 50c. each.

Ledenbergia Rosea.
A house shrub of free growth, upper surface of leaves bronzy green, lower reddish rose color. 25 cents each.

Maranta.
Amabilis. Foliage bright green with silver band. 50 cents each.
Baraquinii. 50 cents each.
Bicolor. Deep green marked with dark brown. 30 cents each.
Capitata. 25 cents each.
Eximia. 25 cents each.

Fasiata. 50 to 75
Lindenii. Foliage very dark, with a golden feather along its centre. A fine species. 50c. each.
Litzeana. 50
Majestica. 50
Massangeana. The handsomest of its class. Dwarf habit, with beautiful shaded foliage of silvery white, bluish green, banded with black. 50c. to 1.00 each.
Ornata. Dark metallic green with creamy green markings, fine. 25 cents each.
Princeps. This plant attains a height of from three to four feet, the blade of each leaf measuring upwards of a foot in length; centre dark metallic green, margined with light green. 50 cents each.
Porteanna. This is a vigorous growing species, with fine large foliage feathered with white. 50c. each.

Rosa Picta. 50
Sanguinea. 35
Tubispatha. An elegant and very attractive species of erect habit of growth; leaves some nine or ten inches long, light green, ornamented on each side of the midrib with oblong blotches of cinnamon brown. 30c. to 50c. each.

Undulata. 30
Veitchii. See cut page 14. 50
Van Den Heckeii. Leaves dark satin-like, embellished by a large central line, surrounded by a silver disc. 50 cents each.

Wallissi Discolor. A handsome and distinct variety, with light green leaves marked with a well defined ray of rich dark green. 75 cents each.

Wagnerii. 30
Warscewiczii. 30
Zebrina. The most robust and showy, but the others are more unique in color, though less massive in their growth. 50 cents to 3.00 each.
Maranta Veitchii.

This is undoubtedly not only the finest and most beautiful Maranta ever introduced, but one of the most distinct and striking ornamental foliage plants yet discovered. The plant, when full grown, attains a height of more than three feet, the leaves exceeding eighteen inches in length.

Price, 50 cents each.
### MUSA.

Cavendishii. A magnificent species of the Banana, with leaves six feet long and two broad: of rapid growth, making several of its large leaves during the season; presenting a noble aspect.

1.00 to 5.00 each.

Ensete. Long, broad and massive foliage, of a beautiful green, with a broad crimson midrib; the plant grows luxuriantly from eight to twelve feet high.

1.50 to 5.00 each.

Zebrina, or Speciosa. The stem of this Banana is slender, and the leaves a fine dark green, striped with bronzy red and purple.

2.00 each.

### PALMS.

**Areca Aurea.** 3.00 to 10.00

**Areca Crinata.** 3.00 to 5.00

**" Furfuracea.** 4.00

**" Lutescens.** Beautiful palm; fine color and graceful habit; stem golden yellow.

2.00 to 10.00 each.

**Areca Sapida.**

**" Rubra.** Scarce and nice.

1.50 to 5.00 each.

**Areca Verschaffeltii.** A noble palm; very attractive.

5.00 to 15.00 each.

**Brahea Filamentosa.** Pritchardii Filifera. A splendid novelty. A new palm, from Lower California. It is a Fan Palm, the novelty as well as the beauty of which consists in the thread-like filaments which hang from the edges of the leaves.

1.00 to 2.00 each.

**Carludovica Incisa.**

**" Carludovica Palmata.** A very ornamental plant with pinnate leaves two or three feet across; suitable for the flower garden during summer. Said to be the species from which the Panama hats are made.

1.00 to 4.00 each.

**Carludovica Atro-virens.**

**Calyptromonina Schwartzi.**

**Caryota Urens.**

**Caryota Cunninghamii.**

### PALMS CONTINUED.

**Chamaedora Elegans.** 5.00

**" Formosa.** 3.00

**" Martiana.** 5.00

**Cereoxylon Niveum.** 4.00 to 12.00

**Chamerops Excelsa.** A handsome fan palm; fast grower and easy culture.

1.00 to 3.00 each.

**Chamerops Fortuni.** 1.50

**" Humulis.** 1.00 to 3.00

**" Gracilis.**

**Cocos Weddeliana.** See cut page 16.

**Corypha Australis.** (Australian Fan Palm) Of easy culture and good grower.

50c. to 1.00 each.

**Cycus Revoluta.** (Sago Palm.) Produces a beautiful crown of pinnated dark green leaves.

1.50 to 2.50 each.

**Cycus Circinnalis.** 20.00 to 30.00

**Curculigo Recurvata.** A Palm-like plant, with long handsome leaves.

2.00 to 1.00 each.

**Curculigo Recurvata Variegata.**

**Daemonoropes Fissus.**

**" Melanochates.**

**" Pereacantha.**

**L. atania (Livistonia) Borbonica.**

Latania (Livistonia) Borbonica. (Chinese Fan Palm.) One of the handsomest; one of the most desirable for ordinary cultivation; a good grower.

25c. to 5.00 each.
Cocos Weddeliana.

This is without doubt the most elegant palm in cultivation for table decoration or for the conservatory. Its leaves are almost as finely cut as some varieties of ferns, while for erect habit and vigor of growth it is equal to many of the coarse varieties of palms.

Price, $3.00 to $8.00 each.
Annual Catalogue of Plants.

**Seaforthia Elegans.**

This is a most graceful Palm, eminently adapted for the decoration of the greenhouse and garden. It also makes a fine window plant; leaves are very long and gracefully arched, dark green, the whole plant perfectly smooth, a grand decorative plant.

75c. to 2.00 each.

Sabal Adansoni. (Palmetto.) A pretty dwarf Palm.

50c. to 1.00 each.

Sabal Umbraclulifera. Leaves of immense size, flabellate.

50c. to 1.00 each.

Thrinax Elegans.

20.00

Thrinax Elegansissima.

5.00 to 25.00

Thrinax Parviflora.

3.00 to 5.00

Zamia Cycadafolia.

10.00

Zamia Crassifolia.

do

**PANAX.**

Fruticosum. A plant closely allied to the Aralia, with beautiful fern-like foliage; a fine decorative plant.

50c. to 2.00 each.

Rotundata.

**PANDANUS.—Screw Pine.**

Javanica Variegata. This variegated Screw Pine is well known as one of the finest decorative plants; leaves green, with broad stripes of pure white, gracefully curved; very beautiful. See cut page 18.

50c. to 10.00 each.

Utilis, Screw Pine. Very fine decorative plant, with recurved graceful foliage.

50c. to 3.00 each.

Veitchii. This splendidly variegated Screw Pine is one of the most attractive plants. The leaves which are of a light green color, beautifully marked with broad stripes and bands of pure white are most gracefully curved, which elegant habit of growth renders the plant extremely effective.

50c. to 10.00 each.

**PEPEROMIA.**

A superb hothouse plant, requiring shade and moisture, suitable for ferneries and baskets.

Argyrea. Green, striped with silver grey.

15c. to 25c. each.

Maculosa. Round leaves, silver markings.

15c. to 25c. each.

Magnoliifolia. Large, ovate leaves, of thick substance.

15c. to 25c. each.

Resedecifora. Sweet scented, free flowering variety.

15c. to 25c. each.

Verschaffeltii. Clear silver lines, on bright green ground.

25c. each.

**PANICUM VARIEGATUM.**

A variegated grass of drooping or creeping habit, valuable for baskets or vases, color deep green, striped pink and white.

15c. each. 1.50 per doz.

Plicatum.

15

**PHILODENDRON.**

Bipinnatifidum.

Lindenianum. Leaves of a delicate satiny
This variegated Screw Pine is well known as one of the finest decorative plants; leaves green, with broad stripes of pure white, gracefully curved; very beautiful.

Price, 50 cents to $10.00 each.
Philodendrons Continued.

Green, shaded with metallic olive color on the upper surface, the under part pale green, ornamented with bands of maroon. The young leaves are of a bright chamois color, and the maroon bands of the under parts penetrate through to the upper, so that the coloring of the plants has a glistening and indescribable effect.

50c. to 1.00 each.

Pertusum.

Phyllanthus Rosca-Pictum.

The variegation is exceedingly rich and varied in both color and form, no two colored leaves showing precisely the same markings with like tints. Many of the leaves are a bright crimson, which is also the color of the stems during the early stage of growth; some are a light cream color tinged with a delicate blush; others have a dark bronzy hue shaded with crimson; some are dark green with blotches and spots of rose; while others are tricolored, white with different shades of rose and green.

1.00 each.

Phyllotaninum Lindeni.

A fine Aroid discovered by Mr. G. Wallis, in New Grenada, and sent by him to M. Linden, of Ghent. The plant has robust foliage, which is very persistent; the leaves are of a light glossy green, marked by bands of white, which cross the blade in almost parallel lines from a prominent midrib of the same color.

1.90 each.

Piper Niger. (Black Pepper.)

25c. each.

Rhodia Japonica.

25c. each.

Sansevieria Zeylanica.

Sword like leaves, green marbled with darker shade. 1.00 each.

SANCHEZIA.

Nobilis.

15 to 50 each.

Spectabilis.

15 to 50 each.

SONERILA.

Hendersonii. A charmingly variegated plant, of dwarf habit. Its leaves are most elegantly studded over with silvery white pearl, or tiger like spots upon a rich dark olive green ground. Flowers rosy lilac. This beautiful plant proves far easier in its management than any of the former species of Sonerila. We have found this plant a profuse bloomer during the winter.

50c. each.

TRADESCANTIA.

Aquatica. An excellent plant for vases, stands, hanging baskets, or rock-work, and is unequalled as a window plant where a green screen of drooping foliage is desired.

25c. each, 2.00 per doz.

Repens Vitata. Unsurpassed for rustic and rock work, or as a window plant. Leaves bright green, striped with creamy white.

20c. each, 2.00 per doz.

Multicolor. A beautiful new variety, which will prove a great acquisition to our list of basket plants. It is of creeping or drooping habit; foliage brightly marked and streaked with rose, white, pink, bronze and green.

30c. each, 3.00 per doz.

Zebrina.
Stove Climbers.

Those marked thus + have ornamental foliage.

Adhatoda Cydoniafolia.  
50c. to 2.00 each.

Allamanda Hendersonii.  
A valuable greenhouse plant, having large, deep yellow flowers, four inches in diameter. It can be trained to climb, or can be grown in bush form, as desired. It blooms nearly the entire season.  
30c. each, 3.00 per doz.

BOUGANVILLEA.

do  do

ÆCHYNAVTHUS.  
Pulchella.  
15 to 25  
Zebrina.  
25 to 50

†Campsisium Filicifolium.  
An elegant climber, of rapid growth, for greenhouse culture, the leaves of which much resemble the fronds of a fern in miniature, giving it an unusually graceful appearance.  
25c. to 50c. each.

CLERODENDRUM.  
Balfouri. A stove climber of great beauty. The flowers, which are of a bright scarlet, are encased by a bag-like calyx of pure white; the trusses or panicles of flowers are upwards of six inches in width, and, when trained upon the trellises, and hanging down, have a rich and elegant appearance; continually in bloom.  
30c. each, 3.00 per doz.

†Cissus.  
†Discolor. A handsome climbing plant, foliage beautiful, of varied colors.  
30c. each, 3.00 per doz.

Passiflora Cærulea.  
Flowers blue; hardy with protection.  
25c. each.

Decassaine. (Passion Vine.)  
25 to 50  
Edulis.  
25 to 60  
Princeps. Flowers rich crimson, a very fine greenhouse climber.  
50c. to 1.00 each.
Annual Catalogue of Plants.

**Thunbergia Fragrans.**

Flowers pure white; very fragrant.

**Passiflora Continued.**

Trifasciata. Leaves dark green, tri-lobed, each lobe having a broad central band of rose. 25 to 50c. each.

Quadrangularis. 35 to 50

† " Variegata. do do

**Physianthus Albens.**

A beautiful climber, flowering during the summer and fall months. It is of rapid growth; the flowers are pure white and fragrant, exceedingly useful for summer bouquets. The seed pods are as large as an orange, and very ornamental. It has been called the “Cruel Plant,” owing to its flowers forming a trap, which catch butterflies and other insects.

30c/each.

Price, 35 cents to 50 cents each.

**Paulinia Thrallctrifolia.**

A very beautiful semi-scandent stove foliage plant. 25 to 50c. each.

**Rhyynchospermum.**

Jasminoides. 15 to 25

Jasminoides Variegata. 25

**Syphocampyllum Bicolor.**

1.00 each.

**Stephanotis Floribunda.**

50c. to 1.00 each.

**Thunbergia.**

Fragrans. See cut.

Laurifolia. 35 to 50

Harisii. 30 to 50

**Skindopsis Picta.**

25 to 50c. each.

Dicksonia Antartica. See cut p.25, 50 to 40 00
A most elegant and distinct Fern, with very light and graceful fronds. The multiplicity of minute pinnules and almost invisible ramifications of the rachis impart to the plant a peculiarly charming appearance. The texture of the fronds, which are about a foot long and eight or nine inches across, is thin and fragile; the color is a very pale yellowish-tinted olive green.

Price, 25 cents to $3.00 each.
Dicksonia Antartica.

These magnificent Tree Ferns need no description.

It is well to remark that our plants are not newly imported trunks, but well established specimens with fine heads, having been grown in our establishment for several years.

Price, $1.00 to $50.00 each.
Microlepia Hirta Cristata.

This fine crested Fern is a new introduction from the South Sea Islands, and will be welcomed by all lovers of ornamental ferns on account of its graceful character and free habit of growth. The fronds have a charmingly drooping manner of growth, so that the plants form exceedingly beautiful objects for basket culture, besides being well suited for pot culture, or for planting on rockwork in a warm conservatory.

Price, 50 cents to $3.00 each.

EULALIA ZEBRINA.

The most distinct hardy ornamental grass sent out for many years, an introduction from Japan. It produces long blades, which are marked with broad yellow bands across the leaf instead of longitudinally. It grows from four to six feet in height, forming a striking and graceful plant, its markings being unlike anything that we know of in cultivation. It makes a very attractive specimen plant for the lawn, and will not fail to arrest attention. It bear elegant large tassel-like plumes.

Price, 50 cents each.

Phormium
Tenax Variegatum. (New Zealand Flax.)
Long dark green leaves, distinctly marked with broad stripes of golden yellow.
1 00 each.

Pittosporum
Tobira Variegata.
Tobira

Flowering Plants.
Abelia
Floribunda.

Abutilon
Boule de Niege. This is by far the best white flowering Abutilon that has yet been introduced; all other white flowering sorts have been coarse growing; but in this variety we find a compact growth and abundance of flowers, well suiting it for house culture, where white flowers are desired in winter.
30 cents each.
Darwinii. Flowers beautiful deep orange scarlet, veined and marbled with purple, free bloomer, beautiful for bouquets.
30 cents each.
Darwinii Tesallata.
Thompsonii. Foliage large, with golden spots, flowers yellow veined.
30 cents each.
Verschaffeltii.
Vervium Marmoratum.
Vexillarium Pictum. Small foliage.
15 to 30 cents each.

Acacias
Leading greenhouse varieties 50 to 2 00

Achimenes
In variety.

Adamea
Versicolor. Flowers mottled blue and white.
1.00 each.

Agapanthus
Umbellata, fl. pl. A double form of the blue African Lily.
50 cents each.

Agave
Americana.
Variegata.
Medio Picta.

Aloysia
Citriodora. (Lemon Verbena.) A well-known plant noted for its delightful fragrance of foliage; indispensable for bouquets; no garden is complete without it.
20 cents each.

Azalea Indica
Next to the Camelia this is the most beautiful plant for greenhouse and window decoration, it blooms so profusely that in many instances you cannot see the foliage.
Columbia, white, striped violet.
Delicatea. rosy pink.
Emperor, orange scarlet.
Eulalie Van Geer, light rose, spotted with carmine, large flower.
Flag of Truce, pure white, large double.
Indica Alba, single white.
Mr. Leroy.
Pride of Dorking, vivid crimson.
Souvenir de Prince Albert, deep rose, margined white.
Triomph.

We recommend the above 10 varieties; price, 3 inch pots, 30 cents each, $3.00 per dozen.

Begonias.

Hybrid Varieties.
25 cents each. 2.50 per doz.

Argyrostromia. Lance-shaped leaves, green ground, spotted white.
Foliosa.
Fuchsoides. Winter flowering; bright red flowers.
Fuchsoides Alba, White.
Glaucaphylla Scandens. Drooping variety salmon orange flowers.
Manicata. Leaves bright green, hairy on underside.
Nigra. Deep crimson foliage, pink flowers.
Parnelli. Rich olive, shaded green, spotted silvery white.
Richardsonii. Dwarf, pure white flowers in large panacles.
Sanguinea. Leaves glossy green, undersize rich dark crimson.
**Begonias Continued.**

Semperflorens Saundersonii. Bright scarlet flowers.

Sutherlandii. Orange and yellow flowers.

Weltoniensis. Winter flowering; fine free habit, bearing beautiful bright pink flowers in great abundance.

Weltoniensis Alba. Pure white.

Zebrina. Green ground with dark stripes and blotches.

**Camelia Japonica**

We have upwards of 100 distinct varieties of this beautiful plant, it is one of the most desirable of all greenhouse plants, flowering from Christmas until April. We have a very large stock of Alba Plena, the best old white, which we offer from 30 cents to $2.00 each. Specimen plants, $15.00 to $50.00.

Alba Plena, the old double white.

Americana, blush.

Candidissima, white, fine form, late flowering.

Elata, violet crimson.

Fimbriata, fine old fringed double white.

Imbricata, deep rose, occasionally spotted.

Mrs. Abby Wilder, ivory white, striped rose.

Sarah Frost, rosy crimson.

Sherwoodii, dark rose.

Wilder, rosy pink, fine form.

The above 10 varieties, 8 inch pots, 30 cents each. Larger from 50 cents to $2.00 each.

**Note:** The above text represents a portion of the annual catalogue of plants, listing various species with their descriptions and prices. The catalogue includes details about the appearance, blooming periods, and uses of these plants, along with the cost for each item.
STEVIA
Serrata. Snowy white, blooming earlier and continuing longer in bloom, than any other variety, is best from November to January. 25 to 50 cents each.
Serrata Variegata. Leaves variegated with creamy white. 15 to 25 cents each.

STRELETZIA
Regina. 1.00

THEA
Veridis. Tea Plant. Large plants. 50c. to 1.00 each.

VIBURNUM
Tenus. Laurestinus. Pure white flowers. 50c. to 1.00 each.
Tenus Glabra. Suspensum. 25 to 1.00

VERONICA
Blue Gem. Blue. 25
Speciosa. Reddish purple.

YUCCA
Alcafolia. Variegata. 50 to 2.00
De Smetiana. One of the most beautiful of the class. 1.00 cents each.

Climbers, Etc.

AKEBIA
Quinata. A singular Japanese climber, with small, pretty foliage and diminutive chocolate brown flowers; sometimes almost purple. It is a neat, pretty plant, and grows quite rapidly, often making a growth of twenty feet in one season; indeed, sometimes even greater, and giving good satisfaction. 25 to 50 cents each.

PLANTS CONTINUED.

ACHYRANTHUS
Verschaffeltii. Foliage brilliant carmine; shad in crimson and dark maroon; attaining the height of eighteen inches.
15c. each, 1.50 per doz.

AGERATUM
George Douglas. Dark blue, very dwarf. Dwarf White. Suitable for edges of beds
15c. each.

ALTERNANTHERA
15c. each.

ALYSSUM
(Sweet) Variegatum. Foliage beautifully variegated. Flowers single.
15c. each, 1.50 per doz.

Double White. Each flower in the truss semi-double, of the purest white, habit strong compact, and short jointed.
15c. each, 1.50 per doz.

ALOYSIA
Citridora.

AMARANTHUS
Salicifolius. (The Fountain Plant.) An effective plant; attains the height of from 4 to 6 feet; extremely graceful habit and rich colors of foliage; has proved itself to be a most valuable acquisition; it produces a striking effect when planted as single specimens, and valuable as a hot plant. See cut page 32.

15c. each, 1.50 per doz.

ARTEMESIA
Stellciana.

NEW COLEUS OF 1882.
Excelsior, orange yellow and crimson, flamed with chocolate, green margin.
M. J. Harris, centre bright vermillion, surrounded with rich chocolate, outer margin bright green.
Spotted Gem, bright green, spotted brown and black.
Sunray, bright crimson centre, with rich yellow margin, very effective.
Judge Beaston, robust habit, large foliage with midrib and veins of deep carmine.
Argentemun, beautiful silvery white, finely reticulated with green, one of the best.
Mayor King, base of leaves silvery white, the remainder a rich vermillion, shaded with dark chocolate.
Crystal, large light green foliage, with light yellow veins.

NEW COLEUS CONTINUED.

John Hunter, blackish maroon, with brilliant purple band through the centre of the leaf.
James A. Garfield, centre of leaf chocolate, veined with vermillion and margined with bright green.
Crimson Superb, similar in character to John Hunter, but of much deeper colors.
Maroon Perfection, ground color of dark claret, with large crimson centre.
Joseph L. Caven, pure white centre, margined with bright green.
William Longstreth, foliage finely reticulated with different shades of vermillion.
Mrs. Charles Wood, crimson centre, with light green margin, changing with age to pale claret centre with light yellow margin.
Mrs. Wm. T. Johnson, centre of very light claret, with broad band of dark brown, and outer margin green.
Mattie Tepest, bright crimson centre, with inner marking of light brown and narrow green outer margin.
William K. Harris, ground color of deep maroon, reticulated and veined with crimson.
Canary Bird, white centre gradually shading off to a dark green margin.
Patsy Ryan, light crimson centre, remainder of leaf dark yellow, with narrow green margin.

50c. each, 7.00 for the set.

COLEUS.

Standard Varieties.
15 cents each, $1.50 per dozen.

Abbe Passaglia.
Beauty of Stoke, yellow, suffused with amber.
Baron Buist.
Bob, deep crimson, very dwarf.
Cherub, bright buff, compact, very profuse.
Christine, white, tipped with light chocolate, medium sized flower.
Colonel of the Buffs, fine buff color, large.
Dr. Masters, (Japanese,) bronze yellow.
Dr. Sharp, magenta crimson, one of the best reflexed.
Empress of India, large, pure white; fine.
Golden Ball, bright orange yellow, pompone.
Golden Beverly, creamy yellow, large, incurved.
Golden Queen of England, pale yellow, beautifully incurved.
Golden Hermoine, light orange yellow, tipped with crimson.

Julie Lagravere, the only really crimson Chrysanthemum.
L'Enfant Perdu, large, white, good.
Lilac Cedo Nulli, lilac, tipped with crimson.
Mrs. Ainslie, creamy white, large.
Mrs. Wheeler.
Madame Domage, bright yellow, most profuse bloomer.
Othello, rich maroon crimson.
Prince of Wales, dark purple, large, incurved.
Virgin Queen, pure white, large.
White Venus, large, white, incurved.
50c. each; set of 24, $10.00.

**Chrysanthemums**

We recommend the following varieties as the finest yet offered in this country.

15 cents each.

Anna de Belcena. Sulphur white.
Arlequin. Nankeen yellow.
Bob. Dark brown crimson, fine color.
Cardia. Orange, tipped with red, bloomer, very double and full.
Danton. Bright orange.
Duke of Edinburgh, (Pompon.) Bright golden: yellow globular flowers, quilled. One of the finest among the Pompoms.
Eilaine. White. (Japanese.)
Golden Dragon, (Japanese.)
Golden Pheasant. Beautiful yellow.
Hermoine. Blush white, tipped with purple.
Jardin des Plantes, (large flowering.) Bright golden orange, one of the finest.
Kittii. Silvery white prolific bloomer.
La France, Soft peach color, very fine.
Late Duchess, White, late flowering.
La Nigre. Blackish maroon, tipped with red.
Lilacina. Japanese, Lilac, very free.
Mad. France. Beautiful lilac, medium size.
Mazeppa. Shaded red, incurved.
M'dlle Moulise. Long florets pure white, sulphur centre.
Mrs. C. H. Glover. Large flowering. Intense golden yellow, of exquisite form and free bloomer.
Mrs. George Rundle. Large flowering. Pure white, beautifully incurved; the best white in cultivation.
Annual Catalogue of Plants.

**Chrysanthemums continued.**

Miss May Morgan. Deep blush.
Mr. Sheildrake. Creamy white.

Model of Perfection. Rich lilac, edged pure white; distinct, and one of the prettiest.

M. Lucien Barther. Orange-crimson, tipped yellow.

Orphée. Brick red and crimson scarlet, gold and incurred.

Paul de Croix. Lavender, tinted white.

Pink Perfection. Delicate pink, flaneously incurved, one of the best.

Pride. White, medium size.

Princess Louise. Pompon. Delicate rosy lilac, full high centre, dwarfed and erect habit, a very free bloomer, fine.

Refulgence. Large flowering. One of the very best that has been sent out for several years, color a rich maroon.

Sarnia. Japanese. Pure white, with pink stripe, very large flower.

Saint Michael. Bright gold, dwarf and free.

Temple of Solomon. Large flowering. Of the brightest golden yellow, showy and fine.

Undine. Beautiful buff color.

Virginalis. Shaded pink, fine.

**Cobea**

Seandens. 15

**Coatula**

Bolusa. A very pretty miniature plant for baskets. 25 cents each.

**Cuphea**

Danielsiana. Eminens. Hyssoffolia. Platycnta. 15

**Echeveria**

In variety. 15

**Feverfew**

Pyrethrum. Double white. Aurea or Golden. Lacinata. 15

**NEW FUCHSIAS OF 1882.**

We imported these last year, and believe them to be the best of the European Varie-
ties; not having seen them in flower we are unable to give any descriptions.

75¢ each; set $6.00.

**Fuchsias.**

15 cents to 25 cents each, according to size of plant. Standard sorts and most popular varieties. Those marked * are double.

Arubella. White tube and sepals, rosy corolla.

Bianca Marginata. Blush white tube and sepals, cerise corolla.

Black Prince. Tube and sepals bright carmine, corolla large and open, pale pink, very vigorous and distinct.

Brilliant. Corolla bright scarlet, sepals white.

Canary Bird. Sepals scarlet; corolla dark purple, foliage dark yellow.

Carl Halt. Corolla carmine, striped white.

*Champion of the World. Bland. The largest blooms of any we yet possess, tube short, sepals very broad and of great substance, well reflexed, and of a most beautiful coral red, the foot-stalk of each bloom is of unusual length and strength, so that each flower stands out bold and graceful. Corolla is of immense size, and as it expands forms two thirds of a perfect ball, two inches in diameter. Color intense bright dark purple. Free tall grower, and for conservatory decoration is one of the most remarkable Fuchsias for size ever yet sent out.

Charming. Scarlet tube and sepals, magenta corolla, excellent habit, very large flowers.

Coccinea Superba. Light red tube and sepals, with a deep red corolla.

Dolly Varden. Scarlet sepals, blue corolla.

*Elm City. Scarlet tube and sepals, purple corolla, extra fine.

*Europa. Coral red sepals, white corallo.

*Gem. Violet corolla, sepals carmine.
Eranthemum Albescens. (New.)

For Price and Description, see page 12.

This is the best of all the Eranthemums. They are all desirable for planting out being of a dwarf and compact habit.

**FUCNSIAS CONTINUED.**

General Verdier. Corolla light rose, sepals crimson.

Golden Eagle, Foliage golden yellow.

Inimitable. Scarlet tube, with broad finely reflexed sepals, and deep violet corolla.

Lustre. Bright crimson, vermilion corolla, scarlet tube.

Miss Arthur. Corolla orange scarlet, sepals blush.

Modoc Chief. Tube and sepals scarlet, broad and finely reflexed violet corolla.

*Mrs. H. Cannell. Very large double white corolla, carmine sepals.

*Prince Leopold. Large scarlet tube and sepals, bright purple corolla.

President MacMahon. Corolla scarlet, sepals crimson.

*Purple Prince. Corolla purple, sepals crimson.

Proeum' ens. Prostrate habit, and brilliant

**FUCNSIAS CONTINUED.**

hued flowers, render it suitable for baskets or rockwork.

*Reflexa. Double white.

Rose of Castile. Blush pink and violet.

Speciosa. Waxy pink, distinct species.

*Tower of London. Scarlet tube and sepals purple corolla.

*Voice of the People. Double white corolla, with scarlet sepals and tube.

Wave of Life. Scarlet sepals, bluish violet corolla, very profuse.

**Gnaphalium**

Variegata, (hardy,) a beautiful variety of the Day Lily, with leaves of bright green, heavily striped with white, very ornamental, and well suited to partial shade.

30 cents each.
Annual Catalogue of Plants.

Lilium Longiflorum. (Harrisii.)—The great value of this lily is its free blooming qualities, the great quantity of flowers produced, and the wonderful characteristic of blooming from two to four times in succession without rest. Flowers are trumpet-shaped, points of petals curled under, color of the nectar white and very fragrant. Habit of growth is free, but dwarf, height from twelve to twenty inches. It delights in a high temperature, therefore it can be forced into bloom at any desired time in winter. The cut represents a plant eighteen months old, from a bulb no larger than a pea that flowered three times last year before resting.

1st size, $1.50; 2d size, $1.00; 3d size, 75c. each. $15.00; $10.00 and $8.00 per doz.

Those marked with an *, we have only in 2 1/2 inch pots; those marked with a †, we have only in from 4 to 7 inch pots; those not marked, we can supply either in large or small.

Price, except where noted, 2 1/2 inch pots, 20c. each. Large plants from 50c. to $1.00 each.

**New Hybrid Tea.**

Duke of Connaught. (Seeded from President, fertilized by Louis Von Houtte.) Flowers extra large, full and fragrant; buds very long and of very fine form; color, deep velvety crimson, edged with the brightest red; likely to prove the finest crimson Rose ever introduced.

Price, $1.00 each.

†Michael Saunders. A grand Rose (seeded from President, fertilized with Madame Victor Verdier); flowers extra large, fine form, very double and full, petals of good substance and beautifully reflexed. Color deep rich crimson, beautifully shaded, very brilliant and handsome, and delightfully fragrant.

Price, $2.00 each.

**New Ever-Blooming of 1881.**

Set of 7 varieties by Mail, $2.50.

This list of roses are not the newest, but are scarce and valuable sorts, which have been tested, and are recommended as reliable varieties of great beauty and excellence.

*Innocente Pirola* A very beautiful, new and scarce Rose; flowers pure white, sometimes faintly tinged with silver rose; large, full and double, with long pointed buds; deliciously perfumed; a lovely and valuable rose.

Price, 50c. each.

Perle des Jardins. This magnificent Rose is undoubtedly the finest variety of its color ever introduced; it constantly grows in favor as it becomes better known; color beautiful clear golden yellow; extra large globular flowers, very full and highly perfumed. 35c.

*Queen of Bedders. This splendid Rose originated in England; the plant is a short upright grower, branching freely, every branch terminated by a cluster of beautiful buds and flowers; the flower is large, full and regular; color bright glowing crimson; it blooms constantly from early summer to late autumn; a recent English writer says a bed of this variety 25 by 50 feet had twenty-two thousand five hundred buds and flowers on it at one time. 50c.

*Catharine Meimet. This is a very beautiful and valuable variety, color clear shining pink, with delicately shaded amber and fawn centre; noted for its lovely buds, and very sweet, large globular flowers. 35c.

*Marechal Robert. A splendid Rose, large full globular form; long, pointed buds; very double and deliciously sweet; color pure white, faintly tinged and shaded with soft rosy blush and pale lemon yellow. 35c.

*Comtesse Riza du Pare. A fine variety, imported from France; color, bright coppery rose, tinged and shaded with violet crimson; the flower is large, very full and sweet, and a profuse bloomer. 35c.

*Coquett de Lyon. Canary yellow; medium size; good form; very free flowering. 35c.

**GENERAL COLLECTION.**

**Ever-Blooming.**

The Ever-blooming Roses consist of Hybrid Tea, Bourbon, Noisette and Tea Roses, they commence blooming shortly after being planted out and continue until frost.

*Agrippina. Brilliant fiery red; good size and form; very double, full and sweet; an early and profuse bloomer; much esteemed.

Baptiste Desportes. Bright red, very pretty.

*Bougere. This is a superb Rose; extra large, very double and full; exceedingly sweet Tea scent; color, bronze rose, or violet crimson, delicately shaded with lilae.

Bon Silene Noted for the great size and beauty of its buds, which are valued very highly for bouquets and decorative purposes; deep rose color, sometimes bright rosy crimson, occasionally pale light rose; very sweet and beautiful.
ROSES CONTINUED.

Bengal. Ducher. Pure white, full and of perfect form.

Cornelia Cook. This beautiful Tea Rose is in great demand for its magnificent buds, which are of immense size and of the most lovely and perfect form imaginable; color pure creamy white, sometimes faintly tinged with pale lemon and blush, very double and sweet.

Cells. A valuable old variety, flesh color, a profuse bloomer.

*Devoniensis. Magnolia Roses; beautiful creamy white with rosy centre; large, very full and double, delightfully sweet Tea scent; one of the finest Roses.

*Duez de Magenta. A lovely Rose; pale, transparent salmon, changing to fawn and rosy pink; very beautiful and distinct; the flower is large, very full and double and deliciously fragrant.

Duchesse de Brabant. Soft rosy flesh, changing to deep rose, edged with silver, delightfully sweet Tea scent; beautiful buds and flowers.

*Douglass. Dark cherry red, rich and velvety; large, full and double, fragrant; a neat compact grower; very desirable for bedding.

Gloire de Dijon. A magnificent Rose; one of the finest in every respect; large, perfectly double and Tea-scented, color rich creamy white, beautifully tinged with amber and pale blush, in the South a splendid climber or pillar Rose.

†Homer. Extra good; large, very full and double, Tea-scented, color light flesh, changing to silvery rose; very fine.

Hermosa. An excellent Rose; blooms in fine clusters, large, very double and fragrant, color beautiful clear rose, a constant bloomer; hardy, one of the best.

Isabella Sprunt. Bright canary yellow, large beautiful buds, valuable for decorative purposes, very sweet Tea scent, profuse bloomer.

Louis Phillippe. Deep purplish crimson, very free.

Marie Van Houtte. A lovely Rose, large, very double and full; delicious Tea scent, color white, tinged with yellow, delicately shaded with pale rose.

Mad. Maurin. Creamy white; large, perfect shape.

Mad. Tritle. Salmon yellow, large, full and fine form.

Mad. Villermoz. A lovely creamy white Rose, tinged and shaded with blush; extra large size, very full and double, exceedingly sweet Tea scent, unusually fine.

Marechal Neil. One of the largest and most beautiful Tea Roses grown, flowers extra large, very double and deliciously perfumed, color deep golden yellow, buds of immense size, frequently selling in the flower stores at 25 cents each.

Marie Guillott. A splendid new Rose, first-class in every respect, color pure snow white, sometimes faintly tinged with pale yellow, extra large size, full and double, very sweet Tea scent.

*Melville. Bright pink, changing to silvery rose, good full form, double and fragrant.

*Narcisse. Pale lemon yellow, tinged with salmon rose, medium size, full and double, very fragrant.

*Niphetos. An elegant Tea Rose, very large and double, deliciously sweet, color pure snow white, sometimes faintly tinged with pale lemon yellow.

*President. Splendid large flowers and buds, very double and full, color soft rosy crimson, changing to brilliant Carmine, shaded purplish red, very fragrant and beautiful.

Reve d’Or. Golden Chain, a beautiful Rose of climbing habit, suitable for trellis or pillar, color pale orange yellow or rosy buff, good size, full and sweet.

Safrano. Bright apricot yellow, changing to orange and fawn, sometimes tinted with rose, valued highly for its beautiful buds, very fragrant, and one of the best.

Souvenir d’un Amie. A beautiful Rose, large, very double, full and sweet, color deep rosy flesh, tinged and shaded with purplish lilac.

Souvenir de la Malmaison. A blush centre, flesh, fine foliage and habit, one of finest roses grown.
**ROSES CONTINUED.**

*Queen's Scarlet.* Rich crimson, changing to light scarlet, very free flowering.

*Valle de Chamounix.* Good size, very double, color, coppery yellow, elegantly shaded and tinged with rosy blush, fine.

White Macrophylla. (Alba Odorata.) Medium size flower, very double, white and sweet-scented, very glossy, bright shining leaves.

**Hybrid Perpetual.**

Hybrid Perpetual Roses are the most desirable of all the Roses, being perfectly hardy, although called perpetual, they are not constant bloomers, having their mass of bloom in June, with an occasional flower during the summer.

*Price, 2½ inch pots, 20c. each, in from 4 to 7 inch pots, 50c. to $1.00 each.*

**La France.**

Lovely peach-blossom color, changing to amber rose tinged with crimson; delicious tea fragrance; extra large size, very full and beautiful, a constant and profuse bloomer.

†Mad. Therese Levet. Bright cerise, large and full, beautifully formed.

Mad. Plantier. Pure white, extra hardy, very free.

*Princess Louise Victoria.* A charming rose of climbing habit, medium size, full and sweet.

Paul Neyron. Immense flowers, probably the largest Rose grown, and one of the finest, bright shining pink, very clear and beautiful, very double and full, and somewhat fragrant; blooms the first season and all Summer.

Paroquette. White, blooming in clusters.

**Hardy Climbing.**

Climbing Roses are valuable for training over ornamental arbors trellises, pillars, verandahs, &c., also for covering unsightly objects, as old buildings, fences and walls. In many positions they are objects of rare beauty, and are highly esteemed. The varieties given below are hardy, and succeed well in all sections of the country. In the South many varieties of the Ever-Blooming Roses can be used as climbers.

Baptiste Disporte. Lilac rose, a very hardy climbing Rose.

Prairie Queen. Clear bright pink, sometimes with a white stripe, large, compact and globular, very double and full; blooms in clusters; one of the finest.

Baltimore Belle. Pale blush, variegated carmine, rose and white; very double, flowers in beautiful clusters, the whole plant appearing a perfect mass of bloom, one of the very best Climbing Roses.

Mrs. Hovey. White, tinged with rose.

---

PHILADELPHIA, April 1st, 1880.

To my former customers and the public in general;

Having sold out my entire Floricultural Establishment, at Fifty-third Street and Darby Road, to my son John Dick, Jr., I would recommend him to your confidence, and hope that you will still continue to patronize him. I have no doubt but that he will continue to make all things satisfactory, and that the business will be carried on as formerly.

Although having retired from active business, I still reside on the place and render him all the assistance that is required.

Thanking you all for your patronage, and hoping that "HELENDALE" will still receive a continuance of the same, I remain,

Yours, Respectfully,

JOHN DICK.

Nurserymen and Florists

Wishing to Illustrate their Catalogues at low figures, should send for my Large Illustrated Catalogue of Electrotype of Plants, Flowers, Fruits, Trees, etc. IT WILL PAY YOU!

I can furnish you with any Cut that you want, if you can send me a good clear print, or the name of it.

New engravings, made by a new process, of Plants, Fruits, Flowers, Vegetables, Greenhouses, Covers for Catalogues, Advertising Cuts, or anything you want, from Specimens, Photographs, Sketches, or Descriptions, at very moderate rates.

Price of Catalogue, 25 Cents, which will be deducted from your first order.

A. BLANC, Designer and Engraver,
No. 314 North Eleventh Street,
DICK'S PATENT & IMPROVED HOT WATER HEATERS.

Send for Circular to John Dick, Jr., (Successor to John Dick,) Fifty-third Street and Darby Road, Philadelphia, Pa.
